Press Release

For Immediate Release

Level 3 Inspection LLC located in Stuart Florida recently announced their expansion plans to open an office and distribution/training center in Warsaw. After several months of researching the orthopedic market in Warsaw and visiting the area Bill Greene, Director recognized the importance of a location in the Orthopedic Capital of the World. Level 3 Inspection offers new innovative technology in Computer Aided Inspection. The state of the art White Light digitally scans external and internal surfaces. The Level 3 approach replaces traditional plate inspection. Level 3 plans to work closely with Ivy Tech and other education institutions to train and prepare their new employees. There will be two or three new employees hired in the start up stage when the company has finalized a location in Warsaw. The company believes that the future growth opportunities are tremendous in Warsaw/Kosciusko County. Kosciusko Economic Development Corporation (KEDC) worked closely with Level 3 Inspection through each step of the expansion process. KEDC would like to thank Mayor Wiggins and all the community leaders that welcomed this company.
